

PTZ Rapid Deployment Surveillance

A complete, compact and reliable rapid deployment (RDC) PTZ surveillance system is now available using the latest in camera and technology by offering IP PTZ Cameras with up to HDTV/Megapixel quality video where required as well as onboard storage and more.

Using our existing fixed camera RDC system design we now can achieve a reliable and quick installation system using the latest in camera and POE (power over ethernet) technology.

With options such as WLAN and HSUPA (3G) communications you now can monitor and receive alarms and watch your location.
