

WebRelay-10™

WebRelay-10™ is a robust, industrial relay board with Ethernet communications. It provides remote relay control to its ten large 30-Amp relays. The relays can be individually controlled using a standard web browser or by sending commands from a custom control application. It is self-contained with a built-in web server, and requires no external software, additional network modules, or computers.

WebRelay-10™ is designed for industrial applications and can be DIN-Rail mounted inside a control cabinet. Power and relay connection is made using standard 1/4 inch tab connectors.

Features:

- Ten Independent 30 Amp relays (form C, SPDT)
- Built-in web server for browser based setup and control
- No special software or device drivers required
- XML status and control page make communications with custom computer applications simple
- Can operate as a Modbus/TCP slave
- "On/Off & "Pulse" modes
- Wide power supply range (10-36VDC)
- DIN-Rail Mountable
- External LEDs indicate the current relay state
- 1/4" tab-connectors
- UL/CUL certified relays (E197852)

Model #	Relay Outputs	Contact Rating	Opto-Inputs	Input Range
X-WR-10R12-I	10 (SPDT)	30Amp @240VAC max	0	10 - 36 VDC
